EIS MIDDLE SCHOOL GIRLS *Botball® Team*

The Botball® Educational Robotics Program engages middle school students (6th-8th graders) in a team-oriented robotics competition.

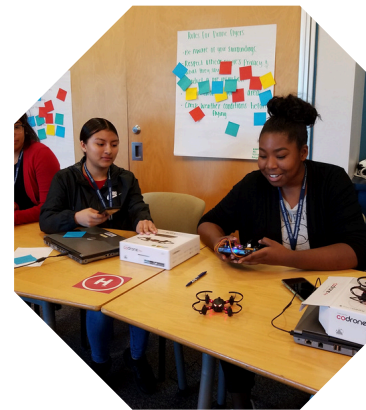

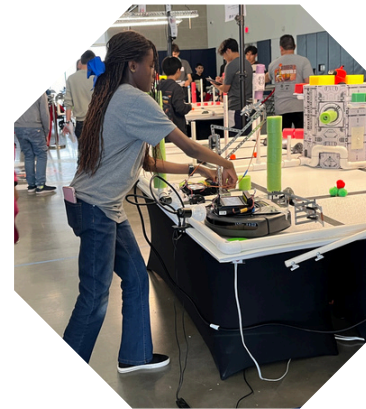

STEM mentors will help the all-girls team learn coding, engineering, leadership and teamwork. Most of all - they have fun!

Students use technology, engineering, math, writing and public speaking skills in a hands-on project that reinforces their learning.

Practice will culminate in students competing at the regional competition on May 3rd.

- January 18 - May 10, 2025:
- Thursdays 4:15pm-6:00pm
- Saturdays 10:00am-1:00pm

All practices will be held at EIS, 608 51st St., San Diego, CA 92114

For more information and to register,
visit eisca.org/FIRE or scan the QR
code. Cost: \$25 per student
